# Innovazione

Contemporaneo è la raccolta delle Collezioni Iotti che danno forma ad un linguaggio nuovo e moderno.

Estetica, funzione, design e ricerca: queste le parole chiave per l'arredo bagno firmato Iotti by Novellini.

Temi interpretati attraverso scelte di carattere come espressione di personalità: l'unicità delle forme che rispecchiano un modo di essere.

Il tuo.

## *Innovation*

*Contemporaneo is a collation of Iotti Collections that give shape to a new and modern language.*

*Aesthetics, function, design and research: These are the key words for Iotti by Novellini bathroom furniture.*

*Themes interpreted through choices of character as an expression of personality: the uniqueness of shapes that reflect a way of being.*

*Yours.*

# **lotti by Novellini**

Oltre che uno storico brand di mobili, lotti è una realtà 100% made in Italy parte integrante del Gruppo Novellini.

Sviluppando internamente tutto il processo produttivo, dalle fasi iniziali di lavorazione del mobile fino all'imballaggio finale, lotti offre soluzioni su misura in base alle esigenze del cliente ed alla natura del progetto.

La continua attività di ricerca e sviluppo è il nostro fiore all'occhiello.

lotti è artigianalità e sartorialità, sinonimi della cura del dettaglio e della valorizzazione del bello, eccellenze tipicamente italiane.

## ***lotti by Novellini***

*In addition to being an historic furniture brand, lotti is a 100% made in Italy company that is an integral part of the Novellini Group.*

*By developing the entire production process in-house, from the initial stages of furniture manufacture through to final packaging, lotti offers tailor-made solutions based on the customer's needs and the nature of the project.*

*Continuous research and development is where we excel.*

*lotti is craftsmanship and tailoring, synonymous with attention to detail and appreciation of beauty, typically Italian excellence.*

# Evoluzione

Finiture e materiali sono le solide radici del dialogo tra lotti e Novellini.

La costante ricerca di lotti sulle finiture trova il suo completamento nella proposta di materiali offerta da Novellini.

Due mondi diversi, che grazie al loro know how, si alimentano trovando linguaggi espressivi sempre nuovi per l'ambiente bagno.

Due brand che dialogano creando l'equilibrio perfetto tra materiali industriali e finiture sartoriali.

L'artigianalità di lotti incontra l'industrialità di Novellini.

## *Evolution*

*Finishes and materials are the solid roots of the dialogue between lotti and Novellini.*

*lotti's constant research into finishes finds its completion in the range of materials offered by Novellini.*

*Two different worlds, which, thanks to their know-how, feed off each other by finding new expressive languages for the bathroom environment.*

*Two brands that dialogue, creating the perfect balance between industrial materials and sartorial finishes.*

*lotti's expert craftsmanship meets Novellini's industrial prowess.*

# Stile

lotti by Novellini è il traguardo di un percorso che parte da lontano, dal mobile componibile per l'esattezza.

Un punto di arrivo che oggi ambisce a diventare "partenza".

Il valore, mai perso di vista e che da sempre ci guida, è quello di dare un senso alla composizione estetica dell'ambiente bagno portando i prodotti a dialogare tra loro.

Lo stile ricercato e la profonda conoscenza del prodotto hanno vicendevolmente alimentato il processo di crescita, attingendo a competenze e dinamiche tra loro differenti ma complementari.

Conoscere la propria storia per proiettarsi nel futuro.

Solo così il Designer è stato in grado di "creare". Grazie a questo approccio siamo stati in grado di interpretare l'alluminio, materia principe di Novellini, comprendendone caratteristiche e potenzialità, per applicarle poi al mondo sartoriale di lotti.

# Style

*lotti by Novellini is the finish line of a journey that began a long time ago, precisely with modular furniture.*

*A point of arrival that today aspires to become a "departure".*

*The value of this approach, which has always been our focus and guide, is that of making sense of the aesthetic composition of the bathroom environment by bringing products into dialogue with each other.*

*The refined style and in-depth knowledge of the product have mutually fuelled the process of growth, drawing on different but complementary skills and dynamics.*

*Knowing one's history in order to project oneself into the future.*

*Only in this way was the Designer able to "create". Only thanks to this approach were we able to interpret aluminium, Novellini's main material, understand its characteristics and potential and then apply these to lotti's sartorial world.*

La collezione **Lab 39** racchiude finiture preziose in giochi di volumi. I lotti by Novellini grazie alla sua estrema componibilità consente a chiunque lo desideri di identificarsi nel design scelto sia per linearità che per materiali. Le geometrie che definiscono lo spazio, con il "rincorrersi" di pieni e di vuoti, permettono percezioni sensoriali diverse e senza eguali.

*The **Lab 39** collection embodies precious finishes in plays of volume. Thanks to its extreme modularity, lotti by Novellini allows the possibility, for anyone who so desires, to identify with the chosen design in terms of both linearity and materials. The geometries that define the space, with the "chasing" of full and empty spaces, allow different and unequalled sensorial perceptions.*

La collezione **Centimetro** è espressione di una profonda consapevolezza nella creazione di finiture artigianali.

I volumi puri giocano con gli spazi, inserendosi sapientemente in qualsiasi progetto pur mantenendo la flessibilità di composizioni funzionali ma stilisticamente ricercate. I ripiani non banali di questa Collezione lotti by Novellini permettono di sfruttare gli spazi vuoti accentuando la capacità contenitiva delle sue geometrie. Un equilibrio unico, il cui valore è sottolineato dalla qualità dei dettagli in argilla, finitura stesa a mano.

*The **Centimetro** collection is the expression of a profound awareness in the creation of handcrafted finishes.*

*The pure volumes play with space, fitting cleverly into any project while maintaining the flexibility of functional yet stylistically refined compositions. The non-trivial shelves of this lotti by Novellini Collection allow empty spaces to be exploited, accentuating the storage capacity of their geometries. A unique balance, whose value is underlined by the quality of the details in clay, a hand-laid finish.*

La collezione **Centimetro** è espressione del dialogo tra prodotti ed architettura. La scelta di nuance preziose, selezionate per essere perfettamente bilanciate tra loro, è dettata dall'ambizione di creare un bagno che sia idea di ambiente. Gli stessi accessori, moderni per vocazione e contemporanei per stile, diventano dettagli ricercati che sottolineano l'emozione di uno spazio totale ed unico. La modularità è intesa come sapiente gioco di volumi in un continuo rincorrersi di suggestioni tecniche ed estetiche che Iotti by Novellini inventa. Nuovamente.

*The **Centimetro** collection is an expression of the dialogue between products and architecture. The choice of precious nuances, selected to be perfectly balanced with each other, is dictated by the ambition to create a bathroom that is an idea of environment. The accessories themselves, modern by vocation and contemporary by style, become refined details that underline the emotion of a total and unique space. # Cover

Geometrie regolari e cornici che delimitano volumi puri: queste solo le parole chiave di **Cover**.

Volumetrie generose che, confondendo la propria identità tra decorazione e struttura, generano un nuovo linguaggio, raccontando di una ricerca estetica che affonda le sue radici nella funzionalità.

Le finiture generate dalla scelta di materiali estremamente preziosi, come ad esempio i diversi tipi di marmi, donano a qualsiasi tipo di ambiente un'indiscutibile eleganza.

I contrasti tra le forme regolari dei mobili disegnano, sulle superfici dell'architettura, un gioco di volumi impreziosito ed accentuato dalla matericità delle finiture.

In questo rincorrersi di geometrie, la sartorialità del design risalta con innata naturalezza nello spazio, narrando visivamente la profonda ricerca alla base del percorso di lotti by Novellini.

*Regular geometries and frames that delimit pure volumes: these are just the key words of **Cover**.*

*Generous volumes which, by blurring their identity between decoration and structure, generate a new language, telling of aesthetic research rooted in functionality.*

*The finishes generated by the choice of extremely precious materials, such as different types of marble, give any type of environment an undeniable elegance.*

*The contrasts between the regular forms of the various elements create a play of volumes on the surfaces of the architecture, embellished and accentuated by the materiality of the finishes.*

*This succession of geometries naturally and effortlessly emphasises the exquisite detail of the design, visually narrating the extensive research underlying the lotti by Novellini approach.*

**Cover** è la scelta precisa di materiali preziosi tanto quanto una cornice è parte integrante del valore di un quadro. Iotti by Novellini dona alle proprie composizioni la medesima scala valoriale. I generosi volumi contenitivi vengono rivestiti di marmi unici, le cui venature si relazionano con un'innata semplicità nell'eleganza della composizione. Un ambiente coordinato ed identitario dalla personalità decisa.

*Cover is the precise choice of precious materials as much as a frame is an integral part of the value of a painting. Iotti by Novellini gives its compositions the same value scale. The generous storage volumes are clad in unique marbles, whose veins relate with an innate simplicity to the elegance of the composition. A coordinated, identity-driven environment with a strong personality.*

La collezione **Cover** è dialogo tra forma e contenuto. Geometrie regolari ma frammentate, volumi con un'ampia capacità contenitiva e finiture declinate in prodotti differenti sono tutte caratteristiche uniche che lotti by Novellini sublima in una contemporanea esperienza di ambiente. Un gioco compositivo in cui i pieni sono circoscritti da cornici materiche. Esse diventano linguaggi espressivi accentuando i profili dei prodotti e coordinandoli tra loro, senza perdere la tattilità degli elementi materici.

*The **Cover** collection is a dialogue between form and content. Regular yet fragmented geometries, volumes with ample storage capacity and finishes available in different products are all unique features that lotti by Novellini sublimes into a contemporary experience of the environment. A compositional game in which full volumes are circumscribed by material frames. They become expressive languages, accentuating the profiles of the products and coordinating them with each other, without losing the tactility of the material elements.*

La collezione **Cover** è una multiforme linearità dalle infinite sfumature. Decorazioni e strutture si mischiano, confondendo la propria identità, e generano un linguaggio nuovo: un design ibrido tra estetica e funzione. Volumi puri che danno vita ad ambienti totali grazie ai contrasti delle proprie forme. Volumi che trovano un equilibrio geometrico all'interno degli spazi racchiusi da architetture private. Iotti by Novellini è il tone of voice che sommessamente diventa unico protagonista.

Decorations and structures mix, blurring their identity, and generate a new language: a hybrid design between aesthetics and function. Pure volumes that give life to total environments thanks to the contrasts of their shapes. Volumes that find a geometric balance within the spaces enclosed by private architecture. Iotti by Novellini is the tone of voice that quietly becomes the sole protagonist.*

La collezione **Cover** è qualità nella scelta di materie prime certe. In un mondo che ha sempre più bisogno dell'armonia tra shock e certezza, Iotti by Novellini esprime i suoi valori attraverso una matericità creata per durare. Elementi orizzontali e verticali giocano con le ombre disegnando profondità scenografiche. Qui i complementi vetrati sono comparse protagoniste in cui la linearità dei profili guida lo sguardo dell'osservatore.

*The **Cover** collection is quality in the choice of guaranteed raw materials. In a world that increasingly needs harmony between shock and certainty, Iotti by Novellini expresses its values through a materiality created to last. Horizontal and vertical elements play with shadows to create dramatic depths. Here the glass complements are protagonist extras in which the linearity of the profiles guides the observer's gaze.*

# Relax

I dettagli sono una componente fondamentale nel design di lotti by Novellini.

Una ricercatezza ben equilibrata tra estetica e funzionalità di cui l'eleganza minimale delle geometrie della collezione **Relax** è sintesi.

Volumi generosi, disegnati con linee realizzate in finiture preziose, raccontano di un linguaggio che aspira ad essere fusione tra design ed eleganza.

L'utilizzo sapiente dei materiali dona al design dei prodotti la capacità di dialogare con ogni architettura, inserendosi come protagonista in qualsiasi spazio.

La profonda attenzione al dettaglio interpreta una moderna linearità che, declinata in geometrie pure, diventa espressione di personalità.

In un ambiente Iotti by Novellini la ricerca del total look è più che una suggestione.

L'ambizione di creare modularità flessibili, in cui il rapporto tra geometrie e materiali diventa continua fonte di ispirazione e di ricerca, trova il suo punto di arrivo nei volumi della collezione **Step**.

Ogni particolare presente nelle composizioni è progettato fin nel minimo dettaglio con l'obiettivo di inserire nell'architettura una composizione dal design ricercato che sappia dialogare con lo spazio in cui si colloca.

Estetica, funzionalità ed ergonomia sono coniugate in volumetrie materiche disegnate per farsi riconoscere e per riconoscersi.

Eleganza e coerenza sono caratteristiche preziose sapientemente modellate grazie alla continua ricerca tecnica e formale.
